### Become a Coursera Mentor for Probabilistic Graphical Models 1: Representation

Hi Caitlin Beecham,

Congratulations! We're impressed by your exemplary academic performance and by the support you've provided to your fellow learners in the course forums, and we'd like to give you the opportunity to become a volunteer Coursera Mentor for Probabilistic Graphical Models 1: Representation. Mentors play a vital role in the Coursera community by supporting learners who need in-course assistance and feedback to successfully complete a course; as a Mentor, you'll help other learners come closer to reaching their goals.

If you're interested in joining the Mentor community, [accept your invitation](#) to our short training course. If you would like to become a Mentor but aren't ready to start the training course right away, feel free to accept your invitation now and take the training course whenever you are ready. Once you complete the training, you will automatically be enrolled as a Mentor and given access to moderator tools and privileges.

Below, you'll find a little more information about the Coursera Mentor role and training course. If you have additional questions, feel free to reach out to [community-team@coursera.org](mailto:community-team@coursera.org).

We look forward to welcoming you as a Mentor!

Claire

Coursera Community Team

**Mentor responsibilities:**

- Answer learner questions in the discussion forums
- Post new threads to spark discussion
- Provide feedback to Coursera staff

**Time commitment:**

- Approximately 3 hours per week
- Initial 3 month commitment

**Perks and benefits:**

- Help other learners succeed on Coursera
- Improve your understanding of course content through teaching and discussion
- Develop your leadership and communication skills by guiding other learners through the course
- Build connections with fellow learners and Mentors around the world
- Take advantage of opportunities to test and review new Coursera features

**Mentor Training course information:**

- The course covers general Mentor responsibilities, expectations and best practices
- The course contains a few hours worth of work, including 3 short peer assessments and a final quiz
- The training course is completely free and includes a certificate if you verify your identity
